ABOUT US

Lone Wolves Digital

The name Lone Wolves Codes was born out of a simple conversation that has now become Our philosophy. It goes like this. A friend told me about his work as a Freelancer, and how he collaborated with others. He ends by saying "We're just a bunch of lone wolves trying to catch a buck" and I liked this. I didn't quite know it yet. But that's the day Lone Wolves Codes was born. When I worked alone making websites, I considered myself one of these wolves. Hence the name Lone Wolf Codes, Today I am proud to announce that "I" have now become "we" and together "we" are Lone Wolves Digital. Lone because we work individually, Wolves because there are many of us in different fields, from codes to Digital because we offer more than just web development but instead a variety of digital products and services ranging across 12 different fields from.

1. Admin & Customer Support, 2. Business, & Finance, 3. Data AI Services, 4. Engineering & Architecture, 5. Graphics Design & Photography, 6. HR & Training, 7. Legal, 8. Lifestyle, 9. Sales & Digital Marketing, 10. Software development & IT, 11. Video, Audio & Animation, 12. Writing & Translation.

Process

Lone Wolves Digital 6-step solution.

Here at Lone Wolves Digital, there's always a plan, if not then we automatically plan to fail! Thankfully you don't have to worry about that. We have a 6-step solution to bring you the best quality digital products and services. Without you lifting a finger.

About Us

6-STEPS SOLUTION

Whether you are an individual Digital Nomad, NGO, NPO, SME a conglomerate, or just starting. Here at Lone Wolves Digital, we have a 6-step solution to suit your needs without compromising on quality or performance. Here is our 6-step methodology for any project.

STEP 1: GOAL IDENTIFICATION

In this first step, we first need to understand how we can help YOU. We need to know what your objectives are in contacting us. How soon do you need it and what are you willing to pay for it? This way we can determine exactly who and what we need to bring you the best outcome. Whether it's 1. Admin & Customer Support, 2. Business, & Finance, 3. Data & AI Services, 4. Engineering & Architecture, 5. Graphics Design & Photography, 6. HR & Training, 7. Legal, 8. Lifestyle, 9. Sales & Digital Marketing, 10. Software development & IT, 11. Video, Audio & Animation or 12. Writing & Translation. Every project is unique, and it all starts here.

STEP 2: SCOPE DEFINITION

Once we have classified your project, we can determine exactly what will go into it. By doing our research. These may be fonts, colors, technology, tools, pictures, video, audio, and animations, all the features and time included. The delivery time may vary depending on the project scope. Please avoid setting out with one goal in mind, but then

gradually expanding and evolving. This will hinder the launch of your project. Let's eat this elephant one bite at a time.

STEP 3: Plan

With the scope at hand and clearly defined. We begin plotting, we will work together to evaluate the terms of the project. Think of this as the floor plan of the building, here is where we define and place all the elements and features from the scope. Depending on the client, this may already be well-defined. If not, we will create tailor-made questions to clarify the idea based on the information provided, and to create relationships between the various component and elements involved in your project.

STEP 4: Manifest

With the plan complete we can start creating your project. From the scope, we will begin placing the right elements into place. With skills ranging from 1. Admin & Customer Support, 2. Business, & Finance, 3. Data & AI Services, 4. Engineering & Architecture, 5. Graphics Design & Photography, 6. HR & Training, 7. Legal, 8. Lifestyle, 9. Sales & Digital Marketing, 10. Software development & IT, 11. Video, Audio & Animation or 12. Writing & Translation. No matter the task our team will do it, step by step you can count on us.

STEP 5: Deliver

Starting with quality assurance we ensure that your project is up to standards. No matter your location all you need is a stable internet connection and a working powered desktop, laptop, tablet, or phone. We will deliver it however, you want it. You can have it your way. Signed sealed and delivered right to your electronic device.

STEP 6: SUPPORT

There may still be some elements of your project that need change. For example, websites and apps are a fluid and ongoing process that requires constant maintenance. Depending on your project, you may or may not need support. Either way, never fear we're always here.

About

~~My dedicated team of creatives is bursting with talent, experience, and passion for what we do.~~

Let's talk about Lone Wolves Digital.

Who are we? What do we do? How do we do it?

And why choose us over our competitor?

Who are we?

What began as Lone Wolves Codes, by a single web developer Caleb Mutombo is now more than just a web development company. Lone Wolves Digital is a decentralized network of freelancing digital nomads, built by a single freelancing Digital Nomad for other freelancing Digital Nomads, SMEs, and well-established conglomerates. Lone Wolves Digital is a digital products and services provider founded and completely run by the founder and CEO Caleb Mutombo. I began Lone Wolves Digital with the emphasis of creating a network of freelancing Digital Nomads. No, you can't find and book freelancers here, that's my job. As I was once known as the freelance Lone Wolf Coder and Digital Nomad, not only did I create this very website, but I also collaborate with other Digital Nomads like content creators, digital marketers, project managers, financial advisors, business coaches, other web & app developers and anyone else I need.

What do we do?

Here at Lone Wolves Digital, we fulfill every client's digital product and service needs and wants no, matter what they are. We know that you want to be seen and heard on the world wide web. You want customers consuming your digital products and services so, they come back for more. Lone Wolves Digital is no longer limited to premium web development. "I" has become "we" and "we" have expanded to off your digital products and services ranging from Admin & Customer Support, Business, & Finance, Data AI Services, Engineering & Architecture, Graphics Design & Photography, HR & Training, Legal, Lifestyle, Sales & Digital Marketing, Software development & IT, Video, Audio & Animation, Writing & Translation. It's simple, you demand and we command. I will assemble the team and manage your projects so you don't ever have to!

How do we do it?

It's the simple things that count! Forget huge office buildings and fancy office supplies I like to keep things simple at Lone Wolves Digital. By collaborating with other freelancing Digital Nomads worldwide all, we need is a laptop, an internet connection, and like-minded people to bring you only the best of the best digital products and services at the lowest cost. That's the beauty of the gig economy.

Why us?

If you are looking for the best digital products and services all in one place at, no extra cost to you! Well, then my friend looks no further because this is as good as it gets. Not only are our digital products and services affordable, but we don't compromise on quality because we, cut the cost by working as a decentralized workforce with 0 to little maintenance cost. We don't need or have large office buildings to work from, and we don't need or have expensive equipment like printers and expensive coffee machines that require costly maintenance. No cleaners or security guards are required, everyone works from home or wherever they are. We are proud to say that we are everywhere and nowhere at the same time!

You're probably wondering how? As mentioned above we save on overheads by keeping things simple. In addition, most of my collaborating Freelance Digital Nomads are actually from 3rd world countries that are rich in skill but lacking in opportunity. Making it more affordable for people in first world countries, but also bringing opportunity to those in 3rd world countries. Lone Wolves Digital is a network that connects us all.

About us.

In a nutshell, Lone Wolves Digital is the home of all things digital. Like a supermarket or a one-stop shop for digital products and services. Like when Jeff Bezos started Amazon by selling books, today Amazon sells everything retail and consumer goods related. Our entire workforce is a global network of digital nomads, that offer digital services by collaborating with other Freelancing Digital Nomads, to cultivate smart ideas and turn them into digital products and services for start-ups and seasoned players.

1 Lone Wolves Vision

In the not-so-distant 3 years from 2023. Lone Wolves Digital seeks to expand collaborations amongst freelance Digital Nomads to 5000. In 5 years from 2023, we aim to provide short online courses, and in a decade from 2023, we will offer university-accredited courses to our global workforce members.

2 Our mission

To become the biggest one-stop destination for all Digital products and services for business and personal needs. Our biggest goal the largest employer of freelance Digital Nomads. We will achieve this by keeping things simple and removing a lot of lengthy processes and unnecessary expenses, like overheads of renting large buildings, buying office equipment, company cars, and cleaning or security services. Each collaborator of Lone Wolves Digital is an independent contractor working on a freelance basis.

3 Why Us?

We offer all the best digital products and services, at the lowest cost at the fastest time with no compromise on quality all in one place. In the same way, you don't drive to a chicken farm for meat and then to a wine farm for milk, you get it all in one supermarket. When you choose Lone Wolves Digital. You choose the supermarket of digital products and services. You are not only getting more bang for my buck but also creating opportunities for those who need it most. So, if you are looking for digital products and services at the lowest price with the highest quality and fastest delivery, choose us to save you time and money. Look no further than Lone Wolves Digital.

BREACH

Should any Party ("Defaulting Party") commit a breach of any provision of these Terms and Conditions and fail to remedy such breach within 30 (thirty) Business Days from the date of written notice from the other/a Party to these Terms and Conditions ("Aggrieved Party") calling upon it to do so, the Aggrieved Party shall without prejudice to any other rights available to the Aggrieved Party, have the right either: to cancel these Terms and Conditions and to claim restitution of whatever has been performed in

terms of these Terms and Conditions; or to take whatever action may be necessary to enforce its rights under these Terms and Conditions, and in either event to claim such damages as it may have suffered as a result of such breach of contract.

The Defaulting Party shall be liable for all costs and expenses (all legal costs calculated on an attorney and own client scale) incurred by it and the Aggrieved Party as a result of or in connection with the breach.

DISPUTE RESOLUTION

Any dispute concerning or arising out of this Agreement exists once a Party notifies the other Party in writing of the nature of the dispute and requires it to be resolved under this paragraph.

The Parties must refer any dispute to be resolved by: negotiation, or mediation. Should all fail then the last option remains arbitration.

Within 30 (thirty) Business Days of actual receipt of the notification, as contemplated above, the Parties must seek an amicable resolution to the dispute by referring it to designated and authorized representatives of each of the Parties to negotiate and resolve it by the Parties signing an agreement resolving it within 15 (fifteen) Business Days. If negotiation fails, the Parties must refer the dispute for resolution by mediation under the Laws of the Arbitration of the Republic of South Africa. If mediation fails, the Parties must refer the dispute within 15 (fifteen) Business Days for resolution by arbitration (which process includes any appeal against the arbitrator's decision) by 1 (one) arbitrator (appointed by agreement between the Parties) as an expedited arbitration in Cape Town, South Africa under the then-current rules for 0 expedited arbitration of South African law. If the Parties cannot agree on an arbitrator within a period of 30 (thirty) Business Days after the referral, then the arbitrator will be appointed by the South African Court.

The periods for negotiation or mediation may be shortened or lengthened by written agreement between the Parties. This paragraph will not preclude any Party from access to an appropriate court of law for interim relief in respect of urgent matters by way of an interdict, or mandamus pending finalization of this dispute resolution process, for which purpose the parties irrevocably submit to the jurisdiction of a division of the High Court of the Republic of South Africa.

This paragraph is a separate, divisible agreement from the rest of this Agreement and must remain in effect even if the Agreement terminates, is nullified, or is cancelled for any reason or cause.
